

Admin: Create & Manage Property

Hey everyone! Welcome back to our admin class. Today, we're taking a deep dive into the brain of the StayVriksha platform - the Property Management Console! As a vendor, lets you seamlessly set up, edit, and keep tabs on all your properties in one centralized directory. Whether you are running cheap student Hostels, cozy Paying Guest (PG) pads, luxury short-term Hotels, fancy Service Apartments, or leasing out full Rented Properties, the system has got you covered! Let's walk step-by-step through the process of adding your first property, modifying details, downloading reports, and managing listings.

The Property Portfolio Directory

Before we click anything, let's refresh our memory on the types of properties you can list and who they serve best:

Stay Type 🏠	What makes it cool? 😎	Who is it for? 👥
Hostels	Super affordable, shared rooms, great community vibes.	Backpackers & Students
Paying Guests (PGs)	Home-like setup, meals often included, cozy atmosphere.	Students & Young Professionals
Hotels	Luxury stays, room service, daily cleaning, total comfort.	Leisure & Business Travelers
Service Apartments	Fully furnished flats with hotel amenities.	Families & Extended Stays
Rented Properties	Long-term lease options to make a place your own.	Families & Long-term Residents

Step 1: Accessing Branch Management 🔑

ADMIN CONTROLS OVERVIEW

- **The Admin Homepage:** When you log in as a property admin, you are greeted by this beautiful, responsive grid of dashboard applications.
- **The Manage Branch Application:** Right at the top left is your master control center - the **Manage Branch** tile.
- **Operational Objective:** Clicking this application launches the Branch Details module where you configure all of your active properties.

Step 2: Adding Your First Property +

LAUNCHING THE CREATION MODAL

- **The Dashboard Toolbar:** Once inside the branch application, you'll see a clean list table tracking your listed properties.
- **The Add Button:** Situated in the top right control bar is the bright teal **Add** button.
- **Instant Modal Trigger:** Clicking 'Add' slides in a comprehensive creation form, ready to register a brand-new property.

Step 3: Entering Property Details

Create & manage property - type, address, contact, Logo, building photo etc.

PROPERTY CONFIGURATION OPTIONS

- **Property Identity & Class:** Enter the property's name and choose its category (Hostel, PG, Hotel, Service Apartment, or Rented Property) from the dropdown.
- **Location Markers:** Fill in the complete Address, Landmarks, Pincode, Country, State, and City.
- **Google Maps Link:** Paste a direct Geo-Location URL so customers can easily route to the property on their map app.
- **Localized Tax Settings:** If the Country is selected as India, a contextual **GST and Tax %** input field appears to capture billing tax structures.
- **Operating Times & Currencies:** Set standard check-in and check-out times, and define your default transactional currency.
- **The Editing Buffer:** Configure the **Allow Edit Before (Hours)** setting to restrict how close to check-in customers can modify or cancel their reservations.
- **Upload Branding & Photos:** Optionally upload your business logo, and upload a mandatory high-resolution home page cover image of the property.

Step 4: Modifying Listed Properties

☒	Property Name	Property Type / GSTIN	Starting Price	Edit Before	Check IN / OUT	Address	Contact Number	Logo	Home Image
☒	Shah hostel (SHAKK8)	Hostel	1,000.00 INR	3 Hrs	11AM to 11AM	kalaburagi,karnataka , Kalaburagi, 787878, Karnataka, India	+91 4343434343	View Logo	View Home

MANAGING ACTIVE PROPERTIES

- **The Inline Editor Control:** In your Branch Details list view, every property entry is fully editable.
- **Quick Selection Checkbox:** Check the box next to your desired property name (like the **Shah Hostel**).
- **The Edit Button:** The top-right toolbar unlocks the **Edit** action button next to 'Add' and 'Delete' when a row is checked.

Step 5: Saving Updates to the Database

THE MODIFICATION MODAL

- **Pre-populated Forms:** Clicking Edit opens the Branch Details modal, pre-filled with all of the property's database records.
- **Applying Changes:** You can modify any parameters - such as adjusting starting tariffs, updating landmark details, or changing contact phone numbers.
- **Live Data Refresh:** Hitting **Save** updates the database and immediately closes the modal, refreshing the main list table below to reflect your updates in real-time.

- **One-Click Backup:** In the master control toolbar, you'll spot a green **Download** button.
- **Excel File Generation:** Tapping this instantly packages your entire active branch list into a beautifully formatted Microsoft Excel spreadsheet ('Branch_Details.xlsx').
- **Data Audit Logging:** The generated sheet contains complete audit records—including Branch Codes, Hostels Names, starting prices, check-in rules, and full physical addresses.

Step 7: Searching, Filtering, and Deleting 🔍

The screenshot displays the 'Branch Details' section of the StayVriksha application. At the top, there is a search bar with 'Property Name' and 'Search by pincode' fields. Below this, a table titled 'Branch Details (1)' contains one entry for 'Shah hostel (SHAKK8)'. The table has columns for Property Name, Property Type / GSTIN, Starting Price, Edit Before, Check IN / OUT, Address, Contact Number, Logo, and Home Image. Action buttons 'Add', 'Edit', 'Delete', and 'Download' are visible above the table. The 'Delete' button is highlighted with a red circle.

Property Name	Property Type / GSTIN	Starting Price	Edit Before	Check IN / OUT	Address	Contact Number	Logo	Home Image
Shah hostel (SHAKK8)	Hostel	1,000.00 INR	3 Hrs	11AM to 11AM	kalaburagi,karnataka , Kalaburagi, 787878, Karnataka, India	+91 4343434343	View Logo	View Home

CENTRAL BRANCH DIRECTORY TOOLS

- **Smart Filtering:** Use the multi-parameter search bar at the top to filter properties on-the-fly by Property Name or exact Pin Code.
- **Destructive Delete Actions:** Safely delete properties from the database by checking their rows and hitting the red **Delete** button.
- **Quick View Links:** The main data table includes handy, direct links to **View Logo** or **View Home** images, letting you double-check active branding assets without leaving the directory table.
