

Vendor: Staff creation and management 🏢

Hey guys! Today, we're unlocking one of the absolute most important sections of the StayVriksha administrator panel - Manage Staff! Running a multi-property setup like Hostels, PGs, Hotels, Service Apartments, or Rented Properties means you can't be everywhere at once. That's why StayVriksha lets you onboard dynamic team members, assign them specific properties, and lock down what they can do using precise, secure, role-based access! In this step-by-step walkthrough, we'll cover how to find the Staff app, create new profiles with custom roles, edit active records, download clean spreadsheets, and see how different roles like Branch Managers and Front Office Employees look inside the system. Let's get right into it!

Step 1: Locating the Staff Manager App 🔑

ADMIN CONTROLS OVERVIEW

- **The Admin Homepage Grid:** Look at this amazing layout! When you land on your vendor master page, you get a clean grid containing all your core operational tools, sorted from left to right.
- **The Employee Details Portal:** Right on the top row, next to coupons, is the bright teal **Manage Staff** tile. Clicking this app acts as your golden gate to view employee details, assign roles, and audit your staff list.

- **Platform Scope:** This master console doesn't just manage staff - it holds active connections to your branches, bed configurations, room schedules, facility options, custom promo codes, booking history, and dynamic service dashboards.

Step 2: Browsing the Staff Catalog & Filters 🔍

STAFF SEARCH AND CONTROLS

- **Multi-Parameter Search Filters:** At the very top of the staff console, you have a responsive search filter bar. You can quickly narrow down your staff roster by typing in the **Branch Code**, **Username/ID**, or filtering by **City**!
- **Search Execution Options:** Once you've selected your search criteria, simply click the blue **Go** button to run the query, or hit **Clear** to instantly wipe out your filters and display the entire staff list again.
- **Control Toolbar Actions:** On the right side of your details header, you have a set of instant-action buttons. You can click **Add** to register a new staff member, select a staff row and hit **Edit** to modify it, click **Delete** to remove them, or tap the **Download** button to export your staff roster to an Excel sheet.

Step 3: Creating and Onboarding a New Staff Member +

The screenshot shows the 'Add Staff Details' dialog box. The fields are as follows:

- Full Name: Mr. Mateen
- Date of Birth: 19/01/2000
- Gender: Male
- Email ID: ziffi.mateen@gmail.com
- Property Name: KVRMP8
- Role: Select role (dropdown menu is open showing: Branch Manager, Front Office Employee, Housekeeping)
- Country: Select country
- State: Select state
- City: Select city
- Contact: +91 (dropdown) Enter mobile number
- Address: Address

Buttons: Save, Cancel

Create new staff - assign property and role

STAFF CREATION DIALOG

- **Personal Identity Details:** Clicking the 'Add' button triggers the Add Staff Details dialog! Here, you enter basic credentials including their Salutation, Full Name, Gender, and Date of Birth.
- **Contact and Location Profiles:** To ensure complete legal compliance, enter their exact Email ID, Mobile Contact Number, complete physical Address, Country, State, and City.
- **Property Assignment & System Role:** This is where the magic happens! Select the specific **Property Name** dropdown (like 'KVRMP8') to bind the staff member to a branch, and select their **Role** - choose whether they are a **Branch Manager**, **Front Office Employee**, or **Housekeeping**, and hit **Save**!

Step 4: Modifying Active Staff Profiles

Ubdyl Mateen Q (00016) 15/05/1999 dev.mateen@gmail.com Shah hostel, Koricha PG Male +91 9877656543 Sayyaji Rao Road in Agrahara, Chamrajpur

Add Staff Details

Full Name: * Mr. Abdul
Date of Birth: * 19/08/1994
Gender: * Male
Email ID: * mateen.queshi@kalpavrikshatechnologies.com
Property Name: * SHAKK7
Role: * Front Office Employee

Country: * India
State: * Maharashtra
City: * Pune
Contact: * +91 709812376
Address: * Railway station, Pune

Save Cancel

Edit staff details

STAFF EDITING OVERLAY

- **Pre-Populated Profile Form:** Selecting an employee's row in the master table and hitting 'Edit' opens the Edit Staff Details popup. All their existing backend data (like `mateen.queshi@kalpavrikshatechnologies.com`) is loaded instantly.
- **Editable Attributes:** Need to update their contact info, transfer them to a different property, update their home address, or promote them to a new role? Modify those specific fields on-the-fly here.
- **Database Refresh:** Click **Save** once you've adjusted their details. The platform securely updates the backend databases and instantly refreshes the main table view below to reflect the new records.

Step 5: Downloading the Staff Roster to Excel

User ID	Staff Name	Branch Code	Role	Date of Birth	Gender	Email ID	Mobile Number	Address	City	State	Country
00016	Mr. Abdul Mateen	Shah hostel, Kvrri	Admin	15/05/1999	Male	dev.mateen@	+91 9877656543	Sayyaji Rao I	Kalaburagi	Karnataka	India
00018	Mr. Mateen	Kvrisha PG	Branch Man	19/01/2000	Male	ziffi.mateen@	+91 9878767655	Super marke	Kalaburagi	Karnataka	India
00019	Mr. Abdul	Shah hostel	Front Office	19/08/1994	Male	mateen.qures	+91 7098123764	Railway stati	Pune	Maharashtra	India

SPREADSHEET PORTFOLIO EXPORT

- **One-Click Sheet Export:** Want a clean physical copy of your team's roster? Click the blue **Download** button in the control toolbar. The system instantly compiles all your active listings and downloads an Excel spreadsheet.
- **Detailed Spreadsheet Schema:** The downloaded spreadsheet features fully structured columns including the unique **User ID**, assigned **Role**, working **City**, **Staff Name**, **Branch Code**, **Date of Birth**, **Gender**, **Email ID**, **Mobile Number**, full **Address**, **State**, and **Country**.
- **Audit and Payroll Offloading:** This offline document is perfect for local administrators, compliance reports, payroll processing, or checking property-level headcounts at a glance.

Step 6: Onboarding Security & First-Time Login

CREDENTIALS SETUP GATEWAY

- **Username Credentials:** Once you click 'Save' on a new staff profile, their registered Email ID (like `your.name@domain.com`) automatically becomes their official username to access the portal.
- **First-Time Security Validation:** Before logging in for the very first time, the new staff member must navigate to the login page and click 'Set / Forgot Password?' to establish their personal password.
- **OTP Verification Rule:** The portal slides in the Set/Reset Password popup prompting for their email ID. Clicking 'Send OTP' triggers a secure, time-sensitive code to their inbox. Follow the step-by-step Set/Reset Password Guide to complete the verification and activate their account!

Step 7: Role Permissions: The Branch Manager

Property Name: Search by pincode:

Branch Details (1)

☒	Property Name	Property Type / GSTIN	Starting Price	Edit Before	Check IN / OUT	Address	Contact Number	Logo	Home Image
☒	Kvrisha PG (KVRMP8)	PG	2,000.00 INR	4 Hrs	11AM to 11AM	pune,maharashtra, Pune, 878778, Maharashtra, India	+91 8787877887	View Logo	View Home

As a Branch Manager, he can modify property but cannot delete

BRANCH MANAGER ACCESS SCOPE

- **Property Configuration Rights:** When a staff member signs in under the **Branch Manager** role, they gain edit-level administrative control over their assigned property (like 'KVRMP8'). They see their property details table and can click the blue **Edit** button in the header.
- **Editable Property Settings:** Branch Managers can actively modify property names, update physical addresses, swap contact phone numbers, upload new branding Logos, configure homepage slider photos, and adjust default checkout pricing structures.
- **Critical Deletion Block:** To protect the integrity of your property inventory, the system enforces a strict security block: a Branch Manager **cannot delete** the property from the platform. The red delete controls are completely hidden or disabled for this role.

Step 8: Role Permissions: The Front Office Employee View

Bed Details

Bed Information | Images

Bed Information

Branch Name: *
Shah hostel

Max No of Rooms: *
10

Description: *
A comfortable and well-maintained double-bed AC room designed for two guests. The room features two comfortable beds, air conditioning.

Images

he cannot delete or modify property, rooms, or beds etc...

FRONT OFFICE COMPLIANCE SCOPE

- **Operational Task Focus:** Signing in as a **Front Office Employee** opens up access to the daily tasks needed to manage guest stays - such as checking occupant lists, monitoring active bookings, and checking bed information configurations.
- **Strict Edit and Deletion Blocks:** Because front-line employees only handle day-to-day operations, the system disables any administrative edit capabilities. Front Office staff **cannot modify or delete** core property details, logos, starting pricing models, or check-in schedules.
- **Resource Integrity Preservation:** To prevent accidental layout shifting or pricing errors, Front Office users are also completely blocked from modifying or deleting related foundational resources like room inventories, bed templates, or active tariff configurations.
