

Amenities: Create and Manage

Hey everyone! Welcome to another administrative walkthrough. Today, we're taking a look at a fantastic way to level up your properties on StayVriksha - the Manage Amenities application! Whether you run a student Hostel, a cozy PG, luxury Hotels, Service Apartments, or long-term Rented Properties, your dashboard makes it super easy to set up and customize your amenities catalog. Let's jump right into this step-by-step screen walkthrough so you can show guests exactly what makes your stay special!

Step 1: Heading to the Amenities App

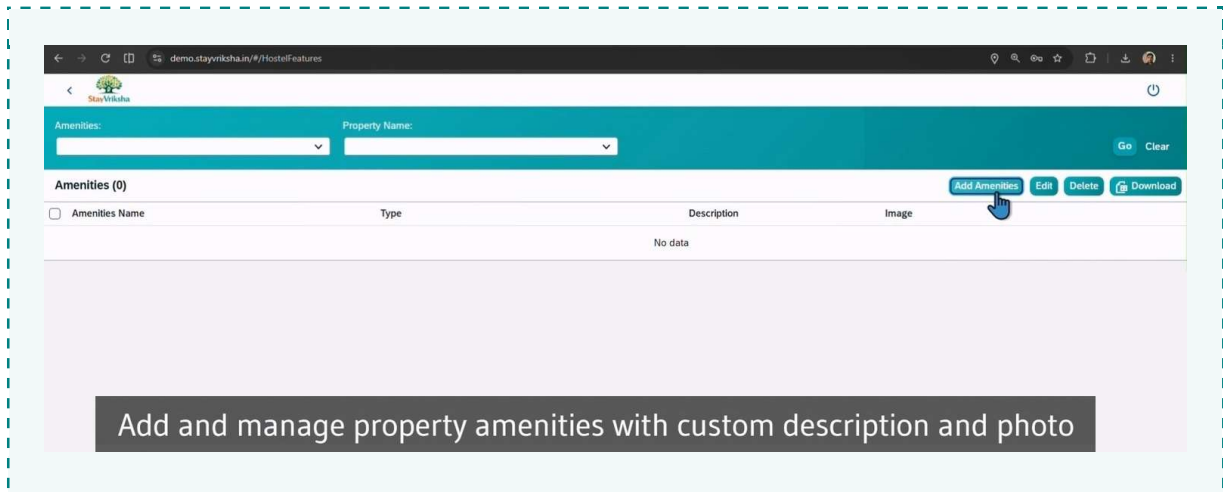

ADMIN CONTROLS OVERVIEW

- **The Vendor Control Panel:** When you log in as a property administrator or vendor, you are greeted by this beautiful, responsive dashboard of management tools.
- **The Manage Amenities Tile:** Look right under the 'Home' category! You'll see the dedicated 'Manage Amenities' tile (labeled 'Amenities Details') with a home icon and a hand pointer hovering over it.
- **System Purpose:** Clicking this tile launches the Amenities Configuration panel where you can view, add, or customize free and inclusive amenities offered across all your listed branches.

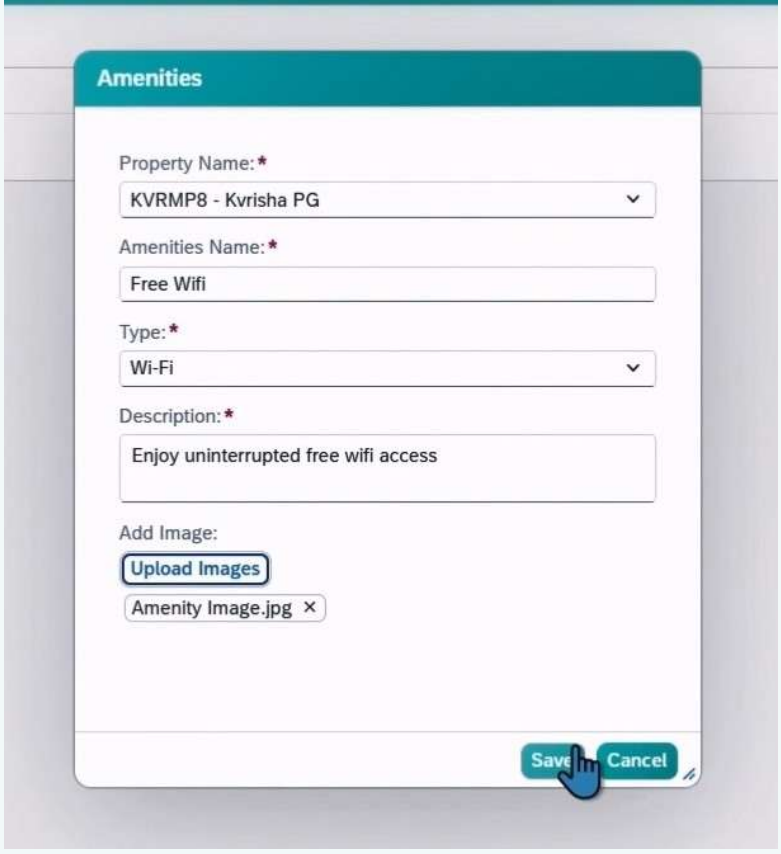

Step 2: Your Amenities Dashboard Overview 🔍

MASTER AMENITIES SEARCH CONTROLS

- **Searching & Query Filters:** At the top of the dashboard, you have dynamic dropdown filters for 'Amenities' and 'Property Name' to narrow down your listed amenities.
- **The Master Tool Bar:** To the right, you have your action buttons: 'Add Amenities' (highlighted with a blue hand cursor), 'Edit', 'Delete', and 'Download' to manage your inventory.
- **Dynamic Data Table:** Below, a clean grid displays your Amenity Name, Type, Description, and Image. If you haven't added anything yet, it shows a friendly 'No data' message!

Step 3: Creating a Shiny New Amenity! +

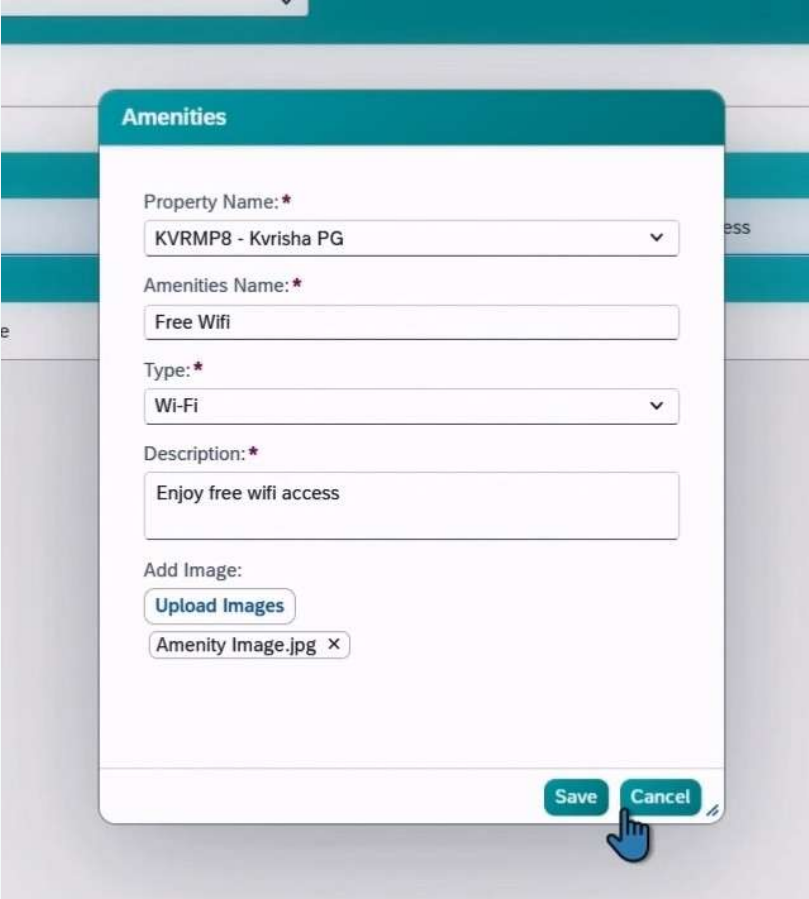

The screenshot shows a modal dialog titled "Amenities". It contains the following fields and controls:

- Property Name:** A dropdown menu with "KVRMP8 - Kvrisha PG" selected.
- Amenities Name:** A text input field containing "Free Wifi".
- Type:** A dropdown menu with "Wi-Fi" selected.
- Description:** A text input field containing "Enjoy uninterrupted free wifi access".
- Add Image:** A section with an "Upload Images" button and a preview of "Amenity Image.jpg" with a close button (X).
- Buttons:** "Save" and "Cancel" buttons at the bottom right. A mouse cursor is clicking the "Save" button.

AMENITY DETAILS DIALOG FORM

- **Targeting Your Stay:** In the 'Property Name' dropdown, choose where this amenity belongs (for example, selecting 'KVRMP8 - Kvrisha PG').
- **Amenity Identity & Type:** Enter the 'Amenities Name' (like typing 'Free Wifi') and select its category in the 'Type' dropdown (such as selecting 'Wi-Fi').
- **Setting the Description:** Add a brief, clear description like 'Enjoy uninterrupted free wifi access' to let your prospective guests know what's included.
- **Uploading an Image Logo:** Click the 'Upload Images' button to browse your computer and upload an image file representing your amenity, then hit 'Save'!

Step 4: Editing and Tweaking Existing Amenities

The screenshot shows a modal window titled "Amenities" for editing an existing amenity. The form contains the following fields:

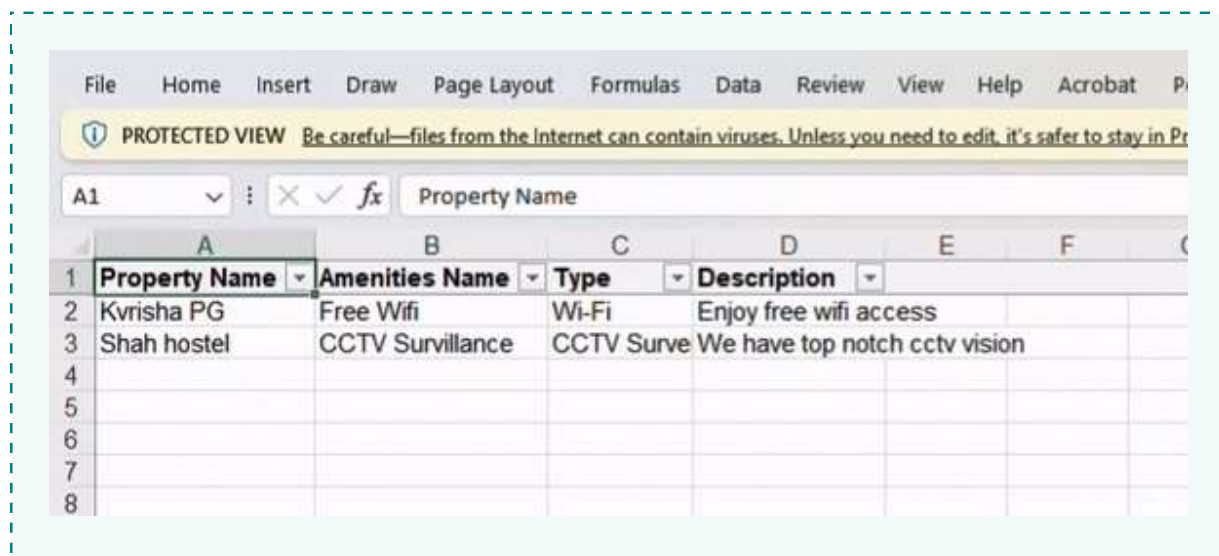

- Property Name:** A dropdown menu showing "KVRMP8 - Kvrisha PG".
- Amenities Name:** A text input field containing "Free Wifi".
- Type:** A dropdown menu showing "Wi-Fi".
- Description:** A text input field containing "Enjoy free wifi access".
- Add Image:** A section with an "Upload Images" button and a file input field showing "Amenity Image.jpg" with a small 'x' icon to remove the image.

At the bottom right of the modal, there are two buttons: "Save" and "Cancel". A hand cursor is pointing at the "Cancel" button.

AMENITY MODIFICATION CONSOLE

- **Selecting and Tweaking:** Select an amenity from your table and hit the 'Edit' button. The modification popup slides in with all your saved values pre-loaded.
- **Flexible Modifications:** You can easily tweak the name, adjust the description text (such as updating 'Enjoy uninterrupted free wifi access' to a snappy 'Enjoy free wifi access'), or change the property assignment.
- **Replacing Image Logos:** If you want to refresh the logo, click the small 'X' next to the file name to discard it, click 'Upload Images' to add a new one, and hit 'Save' to update the database.

Step 5: Downloading Your Excel Inventory Sheet

The screenshot shows an Excel spreadsheet with the following data:

	A	B	C	D	E	F
	Property Name	Amenities Name	Type	Description		
2	Kvrisha PG	Free Wifi	Wi-Fi	Enjoy free wifi access		
3	Shah hostel	CCTV Surveillance	CCTV Surve	We have top notch cctv vision		
4						
5						
6						
7						
8						

SPREADSHEET EXPORT PREVIEW

- **Instant Portfolio Export:** Click the 'Download' button in the toolbar, and StayVriksha instantly generates and saves a clean, formatted Excel spreadsheet directly to your device.
- **Structured Data Audit:** Open the sheet to see organized columns: Property Name, Amenities Name, Type, and Description.
- **Clean Records:** Review all your active setups at a glance, like auditing the 'Free Wifi' setup at 'Kvrisha PG' and 'CCTV Surveillance' at 'Shah hostel'.

Step 6: Retiring an Amenity (Safety Check) 🗑️

DELETION CONFIRMATION WARNING

- **Removing Old Items:** To clean up your catalog, check the box next to any listed amenity and click the red 'Delete' button in the top toolbar.
- **Safety Confirm Box:** A secure popup asks, 'Are you sure you want to Delete the Selected Amenities: CCTV Surveillance?'. This is a double-check to prevent accidents.
- **Completing Deletion:** Hit the 'Yes' button with the blue hand cursor to instantly delete it from your listed stays, or click 'No' or outside the box to keep it safe.
