

Admin: Bed Template Management

Standardizing Your Stays! 🏠

Welcome to the StayVriksha admin walkthrough! Managing room layouts across hostels, PGs, hotels, or rental properties can be a headache, but the **Manage Bed Template** application solves this by letting you standardize room setups, maximum occupancies, extra-bed pricing, and security deposits across your properties in just a few simple steps.

Step 1: Opening the Manage Bed Template 🔑

ADMIN DASHBOARD NAVIGATION

- **The Admin Dashboard Home:** When you first log in as an administrator, you're greeted by a beautiful layout of operational application tiles.
- **The Bed Template Tile:** Locate and click on the 'Manage Bed Template' tile right next to Manage Branch. This is your master control center for configuring room setups.

- **Standardization Advantage:** This application is used to standardize bed configurations, deposit rules, room layout constraints, and default pricing structures across all your properties in one centralized spot!

Step 2: Filtering and Searching Bed Templates 🔍

The screenshot displays the 'Bed List (0)' interface. At the top, there are three dropdown menus for 'Bed Type', 'Room Type', and 'Branch', followed by 'Go' and 'Clear' buttons. Below these is a toolbar with 'Add Bed', 'Delete', and 'Download' buttons. The main area is a table with the following columns: 'Bed Type', 'Room Type', 'No of Rooms', 'No of Person', 'Extra Bed', 'Deposit Amount', and 'Description'. The table is currently empty, showing 'No data'. A large banner at the bottom reads 'Standardize room layouts, bed configurations, and pricing across your property!'.

MASTER BED SEARCH CONTROLS

- **Unified Query Filters:** At the top of the screen, you have powerful dropdowns to narrow down your inventory list. You can filter by Bed Type, Room Type, or specific Branch.
- **Run Search:** Click the teal 'Go' button to query the database and pull up your matching templates. If you want to clear your filters and start over, just hit 'Clear'!
- **Trigger Creation Modal:** Need a new standard template? Simply tap the blue 'Add Bed' button situated on the right side of the list tool bar to launch the configuration dialog.

Step 3: Filling the Bed Details Form

Property Name: *

SHAKK8 - Shah hostel

No of Rooms: *

10

Bed Type: *

Single Bed

Deposit Amount: *

1000

Room Type: *

AC

Currency: *

INR

No of Person: *

2

Description: *

A comfortable and well maintained double-bed AC room designed for two guests. the room feature two comfortable beds, air conditioning.

Extra Bed:

Enter no of extra bed

Please add at least one image. Only JPG, JPEG, or PNG files up to 1 MB are allowed.

Upload Images

BED CONFIGURATION DIALOG

- **Property & Branch Bounds:** Select your target branch or property (such as SHAKK8 - Shah hostel) from the dropdown list.
- **Standard Specifications:** Define the maximum number of rooms for this layout, choose your bed type, and pick the room category (AC or NON-AC).
- **Financing and Capacity:** Input the standard deposit amount, select your default operating currency, and type in the maximum number of persons allowed in this layout.
- **Interactive Upload Controls:** Provide a friendly, engaging description of the room layout, set any extra-bed counts, and browse your files to upload at least one room photo (JPEG, JPG, or PNG up to 1 MB). Click Save to compile!

Step 4: Confirming the Live Bed Template ✨

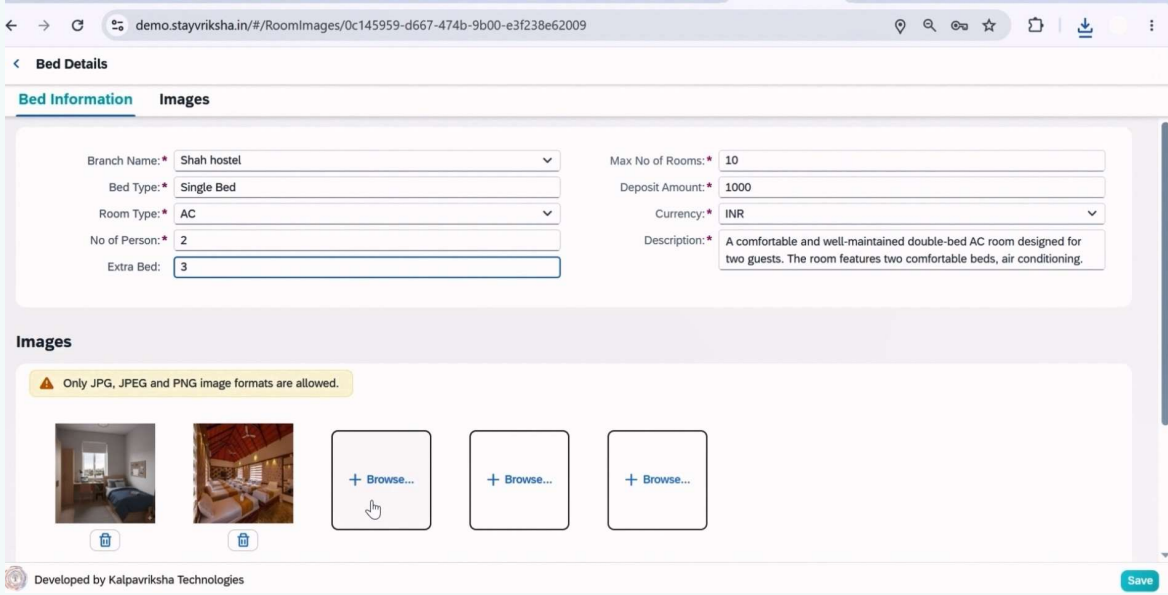

The screenshot shows a web browser window with the URL `demo.stayvriksha.in/#/BedDetails/Title%20Page`. The application header includes the Stay Vriksha logo and a search bar. Below the header, there are three dropdown menus for 'Bed Type', 'Room Type', and 'Branch', each with a clear button. To the right of these menus are 'Go' and 'Clear' buttons. Below the filters, there is a 'Bed List (1)' section with 'Add Bed', 'Delete', and 'Download' buttons. The table below has the following data:

☐ Bed Type	Room Type	No of Rooms	No of Person	Extra Bed	Deposit Amount	Description
Shah hostel						
☐ Single Bed	NON-AC	10	2	0	1,000.00 INR	A comfortable and budget-friendly single-bed non-AC room suitable for students, working professional... Show More

LIVE INVENTORY RECONCILIATION

- **Real-time Database Insertion:** Once you click save, your new bed template is compiled and dynamically inserted into the backend tables.
- **Dashboard Reflectivity:** The Bed list instantly refreshes and displays your new template (such as Shah Hostel's Single Bed NON-AC setup) right in the main table.
- **Data Directory Verification:** The directory grid displays all verified details: bed type, room AC tier, room counts, deposit amounts, extra bed margins, and descriptions.

Step 5: Updating and Modifying Bed Details
