

Facilities Management! 🛠️

Hey guys! Welcome back to another admin walkthrough. Today, we are focusing on a super exciting part of your StayVriksha hub - the Facilities Management module! Chargeable and selectable facilities are an awesome way to provide extra value to your guests while bringing in additional revenue. Whether you are adding premium High-Speed WiFi, a Gym membership, Laundry services, Air Conditioning upgrades, extra bedding options, or tasty breakfasts, this module makes it a total breeze to manage! Let's jump in and look at how to set these up, customize pricing by hour, day, month, or year, and easily export your data!

Step 1: Heading to the Facilities App 🔑

FACILITIES OVERVIEW

- **The Admin Tile Page:** Once logged in as an administrator, you're greeted by a beautiful homepage full of practical control tiles. From here, you can manage branches, beds, rooms, bookings, staff, and coupons.
- **The Manage Facilities Application:** Look at the top center of the Home actions grid! Right there is your 'Manage Facilities' tile with a nice little spark icon. Click on it to open the Facilities Details module.
- **Operational Objective:** This application is used to standardize, create, and manage customizable, chargeable, or selectable facilities across each of your registered properties.

Step 2: Facilities Dashboard & Controls 🔍

DASHBOARD SEARCH CONTROLS

- **Dynamic Filters:** At the top of the Facilities page, you have search filters for Facility Name and Property Name to quickly look up existing services.
- **Run Search & Reset:** Type or select your criteria, then hit the blue 'Go' button on the right to search. If you want to reset everything and see the full list, just hit 'Clear'!
- **Action Buttons:** On the right side of the facilities list header, you have three key options: 'Add Facility' to create a new option, 'Delete' to remove an option (just select its checkbox first), and 'Download' to instantly export the entire roster to Excel!
- **Facilities Table Grid:** The main catalog table details everything you need to see: the property name, facility name, service type, hourly, daily, monthly, yearly, and unit pricing, selection mode (like Per Person or flat rate), and custom descriptions.

Step 3: Creating a New Facility +

Add Facilities

ADD FACILITIES DIALOG

- **Property & Identity:** Select your target Property Name from the dropdown (like 'KVRMP8 - Kvrisha PG') and type in the Facility Name (such as 'GYM') and Type (like 'Gym Membership').
- **Selection Modes:** Choose your Selection Mode from the dropdown. Setting it to 'Per Person' means the rate applies individually to each guest allocated to the room!
- **Flexible Price Matrix:** Set up your custom price tiers: specify hourly price (e.g., `10`), daily price (e.g., `100`), monthly price (e.g., `2500`), and yearly price (e.g., `25000`) in your local currency (like INR).
- **Supported Visual Uploads:** Click the 'Upload Images' button to attach up to three high-quality JPG, JPEG, or PNG images. They'll be displayed beautifully in the client room-browser dialog!

Step 4: Reviewing & Modifying Saved Facilities

FACILITY INFORMATION UPDATE

- **Tabs navigation:** Review saved facility details easily under two tabs: the Facility Information tab for raw setup fields and the Images tab for attached media.
- **Data Verification:** Double-check your branch name, facility name, service type, selection mode, currency, and entire hourly/yearly tariff configuration.
- **Media Management:** Easily add new photos or delete and replace existing ones under the Images tab. Click Save to instantly commit modifications to the database.

Step 5: Exporting Your Facilities Spreadsheet

EXCEL REPORT EXPORT

- **Spreadsheet Generation:** Click the 'Download' button on the Facilities table toolbar to instantly export your entire service catalog.
- **Detailed Columns:** The generated Excel file cleanly tracks the Hostel Name, Facility Name, Service Type, Hourly, Daily, Monthly, Yearly, and Unit prices, plus Selection Modes and custom descriptions.
- **Auditing & Records:** This offline sheet is perfect for managing service prices, comparing rates across branches, or printing reference records for the administrative team!
